

2013 Capture[®] LFR[®] Insecticide Equipment Partner Bonus for Growers

The 2013 FMC Capture LFR Insecticide Equipment Partner Bonus for Growers has been established to enlist support from liquid fertilizer suppliers, distributors, retailers and growers for FMC’s at-plant insecticide that will result in increased sales of Capture LFR insecticide. This incentive is designed to reimburse growers for the cost of equipment used to help increase plant stand and optimize corn yields.

Growers can earn a rebate of **\$40 per gallon** on Capture LFR insecticide to be used towards qualifying equipment purchases. **That’s over \$1.00/acre at the seedling pest rate and \$2.65 at the corn rootworm rate!** Rebate cannot exceed the equipment cost and equipment must be purchased during the current program year.

Qualified Equipment:

In-furrow equipment to deliver Capture LFR	Capture LRS equipment, parts or update kits
Yield Monitor w/mapping	Closing wheels
Hoses, clamps, fittings	Tanks for Planters, storage or transport
Seed firmers	Precision planting monitors
