March 18, 2020

At Ohio Valley Ag, we love our customers and are thankful that you choose to shop with us. We also take very seriously our role as a responsible employer. Our thoughts are with all who have been impacted by the Coronavirus, and as part of our commitment to help protect the welfare of our employees, each of you, and the broader public, we wanted to share with you the precautions we are taking at all of our locations to keep everyone safe.

While we take pride in our everyday practices to maintain a clean environment within all our stores, at present, we have implemented additional measures that reflect the recommended standards of the Centers for Disease Control and Prevention (CDC) in response to the Coronavirus. Stores have been sent disinfecting kits with supplies to address this change.

In our stores, all high touch and high traffic areas are being sanitized regularly. We are also actively communicating with our employees about the role each of us can play to help prevent the spread of any germs, including thorough hand washing, avoiding contact with people who are sick and, of course, staying home if they are not feeling well.

While our stores will remain open and our employees ready to serve you, we are encouraging customers to call in your parts orders. We'd be happy to set parts outside or provide curbside pickup during store hours. Simply call when you are at the store, and we will be glad to bring the parts outside to your vehicle.

Thank you,

Brian
