

2-Cycle Oil & Car Care

Semi-Synthetic 2-Cycle Oil

This product is an advanced technology TCW3 "low smoke" two-cycle oil formulated from a special blend of mineral oil, polybutene and a low ash additive system. Lucas 2-Cycle Racing Oil is specially designed to prevent carbon deposits to the piston rings, skirt, crown and under crown areas and prevent exhaust port blocking. It is prediluted with a special solvent to facilitate mixing with gasolines at all temperatures.

Lucas 2-Cycle Racing Oil is recommended for all air and liquid cooled two-stroke engines and lower specific output aircooled engines functioning under all operating conditions. Meets the requirement for "low smoke" oils often referred to as "smokeless" oils. Designed primarily for use with oil injection systems where no fuel/oil premixing is required. However, it is also acceptable for use in premixes of gasoline and oil up to 50:1.

- Prevents carbon deposits
- Mixes well with gasolines at all temperatures
- Meets requirements for "low smoke" oils

Semi-Synthetic 2-Cycle Land & Sea Oil

Lucas High Performance Semi-Sythetic 2 CYCLE Land & Sea Oil has been specifically developed for Motorcycles, ATVs, Go Karts, Personal Watercraft, Outboards, Snowmobiles, Weed Eaters, and Chain Saws. Mix ratio is 50:1.

A "TRUE" Smokeless Formula, Lucas 2 Cycle Land & Sea Oil is specially formulated with high quality base oils fortified with a Lucas ashless detergent inhibitor package to minimize spark plug fouling, preignition, ring sticking and combustion chamber deposits. For more specific information on each racing oil please review our product specification sheets.

- Primary Application - 2-Stroke Outboards and 2-Stroke Personal Water Craft
- Surpasses Mercury, Evinrude, and Johnson Motors requirements
- Expect longer ring life, less fuel consumption and no filter clogging
- Excellent rust protection
- Prevents piston and cylinder scuffing
- Meets or exceeds industry performance requirements.

Slick Mist Speed Wax

Lucas Oil Slick Mist is a polymer paint gloss intensifier, which can be used on other surfaces such as glass, chrome and vinyl decals. Use Slick Mist as a traditional wax, quick detail spray or spray it on your vehicle between rinsing and drying for the easiest polish job ever. That's right! Just spray it on a wet or dry surface and wipe it off. Slick Mist out performs the competition and will leave your finish slicker and shinier than any product on the market, with long lasting protection. You and Slick Mist can give any machine an extreme gloss fast!

- Premium Paint Gloss Intensifier
- Great for Cars, Trucks, Boats, Motorcycles, and Airplanes
- Shines and Protects in One Easy Application
- Excellent Results on Chrome, Glass & Vinyl Decals
- Use on Wet or Dry Surfaces
- Quick and Easy

Engine Oil Additives

Heavy Duty Oil Stabilizer

A pure petroleum multi-use oil supplement. Controls noise, heat and wear in manual transmissions and differentials. Number one in the heavy duty and high performance industries. Lucas Oil Stabilizer is a 100% petroleum product formulated to eliminate dry starts and reduce friction, heat and wear in any type of engine. It allows motor oils a higher degree of lubricity which reduces oil consumption and operating temperatures. Use Lucas Oil Stabilizer in gear oil to stop leaks, reduce operating temperatures and increase life. Since it is pure petroleum, it can safely blend with all other automotive lubricants, even synthetics, ATF and mineral oil. It keeps old engines alive and new engines new.

- Increase oil life at least 50% longer
- Reduces oil consumption
- Eliminates dry starts
- Raises oil pressure
- Increases power and miles per gallon

Pure Synthetic Oil Stabilizer

Light enough for an import - Tough enough for a semi. Use in new equipment which requires synthetic oils or any equipment that needs enhanced performance. Also, can be used to protect new and used Heavy Duty and High Performance transmissions, gear boxes and engines. Controls heat and wear in motorcycles, air-cooled engines and all drive train components. Reduces friction for more power and more MPG.

- Increase oil life at least 50%
- Reduces oil consumption
- Eliminates dry starts
- Raises oil pressure
- Increases power and MPG

Engine Oil Break-In Additive

- Protects camshaft lifters and valve train during break-in period of motor.
- Excellent for flat tappet camshafts during break-in or as an additive to any motor oil to prevent premature wear.
- Exclusive blend of extreme pressure additives.
- Add one bottle with every oil change to increase the zinc content of your motor oil.
- Designed for race applications requiring additional extreme pressure additives.
- Dyno testing shows a more efficient break-in when used resulting in less engine run time prior to race day.
- Not designed for passenger car use.

Fuel Additives

Lucas Fuel Treatment

A powerful blend of oils and additives that contain no SOLVENTS. Designed to increase power and fuel mileage and also lower exhaust emissions through a more complete combustion. Lucas Fuel Treatment is formulated for both gasoline and diesel engines, carbureted or fuel injected. It gives your fuel system what it really needs - a blend of super slick oils and additives with a high detergent action that allows the engine to operate at maximum efficiency. Also, it cleans and lubricates the carburetor and injectors and causes the fuel to burn more thoroughly for increased power and less fuel consumption. Lucas Fuel Treatment should definitely be used in vehicles that require leaded fuel because it actually replaces the benefits of lead in gasoline without causing harmful emissions. Use it to pass smog tests. Finally, it totally neutralizes the harmful effects of low sulfur diesel fuel.

- A great tune-up in a bottle
- Cleans and lubricates the fuel system
- Neutralizes low sulfur fuel problems
- Increases power and miles per gallon by burning excess exhaust emissions
- Increases the life of pumps and injectors

Universal Hydraulic Fluid

This powerful product gives equipment owners extra protection for their hydrostat and automatic transmissions. Lucas Universal Hydraulic Fluid starts with the highest quality base oils available and an additive package that contains thermal stabilizers and lubricity agents that are not found in conventional hydraulic fluids. It gives operators and equipment owners the extra protection for their investment and reduces downtime due to heat and lack of lubrication.

- Meets and exceeds all OEM specifications for power shift transmissions
- Extends equipment and fluid life
- Reduces downtime and major over-haul

AW Hydraulic Oils

Lucas AW Hydraulic Oils provide excellent wear protection in critical hydraulic pump parts. They eliminate rust and corrosion and minimize foam. Designed for use in machine tools, presses, die casting, airline lubricators, reciprocating air compressors, circulating systems, hydraulic control systems and plain and anti-friction bearings.

- Cleaner hydraulic system
- Extended fluid life
- Less wear-and-tear
- Protection of parts made of copper

Motor Oils

Lucas High Performance Synthetic Racing Oil is an excellent product that provides the consistent viscosity needed for precision ET racing. It's blended with an exclusive additive package that includes lubricity agents and anti-seize agents that control drag like a zero weight oil and protect metal like a heavy multi-viscosity oil. It is perfect for high RPM go-cart and motorcycle engines and is also excellent for normal highway usage. For more specific information on each racing oil please review our product specification sheets.

- Consistent viscosity oil
- Perfect oil for high RPM engines
- Excellent normal highway usage oil

Gear Oil & Heavy Duty

HD 80W-90 Gear Oil

Gear oils have needed improving for years, especially in the hi-performance industry. The Lucas 80/90 enjoys the technology Lucas developed in making the "Lucas Heavy Duty Oil Stabilizer", the number one supplemental oil in the heavy duty industry. This gear oil formula is fortified with special anti-wear agents and lubricity agents to control wear and drag as well as special additives to control heat. These features are not found in ordinary gear oils. This gear oil is both excellent for race cars and any heavy-duty application where plain gear oils just aren't good enough.

- Contains special anti-wear and lubricity agents
- Helps to control heat
- Excellent for high performance and heavy-duty applications

15W-40 Magnum Long-Drain Truck Oil

Lucas high TBN 15/40 Truck Oil is a blend of high quality base oils and an additive package that allows extended drain intervals and a much higher degree of protection from metal to metal contact. The exclusive additive package in Lucas 15/40 insures a protective film on parts at all times. Also, the additive package is more resistant to break down from the solvents in diesel fuel than common additive packages found in regular 15/40 blends. Motor oil is usually changed because it's contaminated with combustion by-products, not because it's worn out. The high detergent action of Lucas 15/40 allows up to twice as much contamination to be held in suspension and still have good lubrication qualities.

- Extended drain intervals
- Lower operating temperatures
- Higher degree of lubricity
- Higher oil pressure

Lubricants

Hub Oil

Lucas Hub Oil was formulated to stop leaks in steering axles and trailer hubs on heavy duty trucks. It also allows hubs to run on a marginal amount of oil in case of a blown seal or poor maintenance. It is an excellent gear lube for racing or heavy duty applications.

- Slows leaks
- Prevents downtime
- Extremely heat resistant
- Very long lasting

10088
Quart

Chain Lubricant

Lucas Chain Lubricant was developed to be a long lasting, all weather, all temperature lubricant and protectant for chains, sprockets, cables and open gears. It is water resistant and contains Moly for extreme pressure situations. It should be applied to any nuts, bolts or components that are subject to long term exposure.

- Water resistant
- Contains extreme pressure additives
- Superior protectant

Lubricants & Problem Solvers

Air Tool Lubricant & Penetrating Oil

Lucas Penetrating Oil loosens rusted-on nuts and bolts finding its way between the tiniest of crevasses between metal parts and lubricating them. Lucas Penetrating Oil is fortified with powerful corrosion inhibitors and wetting agents that insure protection to parts exposed to the elements. Lucas Air Tool Lubricant is a unique formula that was developed for the working professional who demands top performance. It combats rust and varnish and coats the working parts with a cushion of water-proof lubricants that resist blowout. That means it lubes the tool and not the floor.

- Extends tool life
- Protects under extreme operating temperatures
- Disperses water
- Resists blowout

Lucas Oil Problem Solvers

Transmission Fix

Lucas Transmission Fix is a non-solvent formulas that stops slip, hesitation and rough shifting in worn transmissions and completely eliminates most seal leaks. Use in any transmission for preventative maintenance. Use also in light duty manual transmissions to increase shifting ease and transmission life.

- Contains no solvents
- Lowers operating temperatures and stops foaming
- Can be added to existing fluid without draining any out
- Effective in an extremely high percentage of cases

10009
24 oz.

Deep Clean Fuel System Cleaner

Lucas Deep Clean is blended with an exclusive Lucas additive package and specific carrier fluid that contains no diesel fuel, kerosene or anything else that can be harmful or useless to an engine. It also reduces NOx emissions, eliminates the need for higher octane fuel, and deep cleans the entire fuel system and combustion chamber.

- Greatly reduces harmful NOx emissions
- Removes carbon deposits
- Totally eliminates knocking and pinging
- Raises mpg and performance

10669 10512
5.25 oz. 16 oz.

Lucas Contact Cleaner

Lucas Contact Cleaner is blended with a unique blend of solvents, cleaning agents and propellants designed to remove oil, dirt and moisture from contact points. Lucas Contact Cleaner is compatible with metals, and elastomers. It is especially effective in motorcycle applications to clean electrical parts that have been exposed to high levels of oil, dirt and debris. This non-chlorinated, CFC free 45% VOC requirement for electrical contact cleaner formula dries quickly and leaves no residue.

- Removes Oil, Dirt, and Debris
- Quick Drying Formula
- Leaves No Residue
- Race Proven
- Comptible With Metals, and Elastomers

10799
14 oz.

Power Steering Fluid

Formulated with the finest base oils and special Lucas additive package, Lucas Oil's Power Steering Fluid with Conditioners outperforms all others, providing smooth, quiet operation while conditioning seals to prevent leaks.

- Improves steering response and feel
- Extends life of pumps, rack and pinion gears, seals, cylinders and valves
- Compatible with all power steering systems and fluids, petroleum or synthetic
- Stops fading and foaming in high performance situations

10442
