

Moisture Testers

Mini GAC 2500 Bluetooth

- World's First Handheld UGMA Moisture Testure
- 149 MHz technology to provide elevator like results
- Menu driven interface
- Easily loads calibration with USB
- Bluetooth capability, sends data directly to your iOS or Android device
- Eliminates pre-weighing with an internal scale
- Tests hot or cold grain between 32 and 122° F
- Receives accurate measurements in a variety of conditions with automatic temperature compensation

PART# MINIGAC2500BT

Mini GAC/Mini GAC+ Accessory Kit

PART# MINIGACACCPK

Mini Gac/MiniGAC+

Mini GAC Moisture Tester

With the mini GAC you can measure moisture: Fast, Easy, Accurate

Package for the mini GAC includes: mini GAC, grain funnel, quick-start guide, one-year manufacturer's warranty card.

(No Test Weight Measurement)

PART# MINIGAC1R

Mini GAC Plus Moisture Tester

- Menu-driven operating system
- An internal scale (no pre-weighing)
- USB compatibility for calibration loading
- Used for over 450 grains and products
- Automatic temperature compensation
- ... And NO screw cap which can damage grains, create oily residue, and are cumbersome to use.

Package for the mini GAC plus includes: mini GAC plus, grain funnel, carrying case, carrying lanyard, operator's manual, and one year manufacturer's warranty card. (Test Weight Measurement)

PART# MINIGAC1PR

GAC 500 XT Grain Moisture Tester

For fast, accurate moisture testing, you can't beat the GAC®500 XT: Just choose a grain, load the hopper, and press a button.

- Easy to use
- ±0.2 moisture repeatability
- Cereals, oilseeds, grass seeds, vegetable seeds, beans
- Stores up to 16 calibrations
- More than 450 calibrations available for download
- 110/220 volt, DC converter, or cigarette lighter power sources
- Preloaded with 10 languages (others available)

GAC500XT

GAC 2100 Agri Grain Moisture Tester

The GAC® 2100 Agri provides grain testing results in just 32 seconds and has the ability to store eight grain calibrations.

- Quick, fully automated grain testing
- Engineered with advanced technology
- Consistent moisture, temperature, and test weight results
- Use for cereals, oilseeds, grass seeds, vegetable seeds, and beans

GAC2100AG

GAC 2700-AGRI Elevator-Quality Testing on Your Farm

- Easy-to-use, intuitive color touchscreen eliminates operator training
- Accurate temperature-sensing capabilities allow you to measure frozen and hot grain
- Memory storage for up to 3,000 measurements
- Multiple USB ports on the back of the unit for software upgrades, USB devices, printer and peripherals
- Additional USB ports located on the front of unit for easy calibration imports as well as keyboard and mouse plug-ins for inputting set-up data

GAC2700AGRI

GAC 2700-UGMA The New Federal Standard in Grain Moisture Analysis

The DICKEY-john Grain Analysis Computer (GAC) 2700-UGMA is the next generation of moisture testers. GIPSA-Certified as UGMA-Compatible.

- Field proven to work with all leading scale systems
- Utilizes the latest 149MHz technology to bring you NTEP certified results with faster analysis time.
- Equipped with NTEP calibrations for all grain types with custom calibrations available for specialty products such as walnuts and almonds, as well as non NTEP calibrations.
- Accurately tests frozen grain with running temperature of -4° F to + 113° F.
- Designed with a color touch screen, easy-to-use operating system and ergonomically designed sample drawer.

GAC2700UGMA

DICKEY-john[®]
 CORPORATION

NIR Analysis

Insta Lab 700

Product Applications:

- Grain processing
- Flour milling
- Ethanol production
- Feed processing
- Meat processing
- Dairy processing

Constituents:

- Protein
- Fat
- Moisture
- Fiber
- Ash and more

Benefits and Features:

- Easy to use
- Intuitive color touch screen, eliminating operator training
- Tungsten halogen light source
- Memory storage for numerous calibrations
- Stable circuitry eliminates electrical drift and ensures nonvolatile storage of calibration constants, eliminating the need for an auxiliary power source.
- Thermoelectrically cooled photo detector eliminates temperature drift
- Sample cup interchangeability
- Liquid sample cup for oils and liquids
- Communication capabilities - Supports both USB and RS232 standard printers. This includes multiple baud rates with custom header and footer.
- File Management, Storage of 3000 records, Export analysis data, Product calibration loading via USB memory stick
- USB, Ethernet Ports - Multiple ports for software upgrades, USB devices, printer and peripherals such as mouse and scanner
- Improved drawer design - Easily removed for cleaning
- Larger optional open sample cup
- Simple slope and Bias adjustment for every calibration
- Uses existing Instalab 600 calibrations

Yetter 5000 Stalk Devastator

Today's hybrids develop tough stalks that can destroy expensive tires and tracks on equipment. The 5000 Stalk Devastator™ saves tires and tracks by knocking over and crimping stalks while leaving them attached, speeding up the cornstalk breakdown process and improving field conditions for spring planting.

Features

- Prevents damage to tires, tracks, wires, and hydraulic hoses on combines, trucks, tractors, and implements
- Knocks over and crimps stalks for faster decomposition and microbial breakdown of residue
- Preserves residue cover, reducing soil erosion and keeping stalks in place in windy conditions
- Quick and easy to install with mounting kits for most corn head models
- Features spring-loaded down pressure
- Solid steel construction ensures reliability and durability
- Will not interfere with most head cart trailers
- Rollers can be locked up for transport or when not in use

Specs

- Rollers cover 2 or 3 rows depending on width and spacing of corn head
- Models available for non-chopping and chopping corn heads with 20" thru 30" row spacing
- Each roller section is equipped with two 1 1/4" square-bore, heavy-duty, non-relubricable, triple-lip sealed, single-row ball bearings on each end
- 1 1/4" x 6" long traction bars maintain roller rotation and crimping of the cornstalks, preventing any slippage; four per row
- Average weight per row: 120 lbs.

The Devastator installs on:

- John Deere
- Case IH
- New Holland
- Geringhoff
- Drago/Drago GT
- Claas/Lexion
- AGCO/Gleaner/Challenger/Massey-Ferguson

Devastator models available for:

- Chopping corn heads
- Non-chopping corn heads
- Narrow row spacing
- Wide row spacing

Sponge Weed Wiper Kits

| Kits | Sprayer Kits | Build your own Kit | ATV Models | Pull-Type Models | Front Bucket Models | 3-Point Hitch Models |
|---|---|---|---|---|--|---|
| Model Sizes Available *models available in 5 ft. multiples | 5-100 ft. | 5-40 ft. | 5-15 ft. | 10-40 ft. | 10-20 ft. | 10-25 ft. |
| Best Application | Fields where large coverage and high clearance is needed. (These sponge kits will attach and plumb directly to your sprayer boom) | Build your own boom/cost effective | Pastures, hay fields and CRP | Uneven ground, and when you need wheels to maintain a small tolerance of weed to crop variance | Row Crops | Row Crops |
| Clearance Range | *Varies by self-propelled model | *Varies by where you mount your boom | Typically as low as 2" to ATV height | 2" - 42" | *Varies by Front Bucket Clearance Capabilities | Typically as low as 4" depending on tractor model |
| What's Included? | <ul style="list-style-type: none"> Sponge Kit for sprayer boom Bolt on easy attach brackets Adapters for spray nozzles | <ul style="list-style-type: none"> Top Crop Sponge Kit | <ul style="list-style-type: none"> Top Crop Sponge Kit ATV Metal Boom | <ul style="list-style-type: none"> Top Crop Sponge Kit Pull Type Model and Boom 15 Gallon Sprayer and Pump | <ul style="list-style-type: none"> Top Crop Sponge Kit Front Bucket Boom | <ul style="list-style-type: none"> Top Crop Sponge Kit 3-Point Hitch Model Metal Boom Sprayer and Pump |
| Does it come with the tank and pump necessary to power the Weed Wiper? | Your Self-propelled sprayer should already have a tank and pump that the weed wiper will pull from | No | No | Yes | No | Yes |
| Benefits of this model | Less passes in your field and high clearance | Flexible mounting option and cost efficient route | Great for weed patches | Necessary for situations where the weeds rise barely above the crop line. These models have stabilizers that hold the set clearance range. | Adjust on the go, and ability to work in row crops | Works well in crop applications |

JMC 36" Soil Sampler w/ Step

If affordability is your biggest concern, the JMC Soil Sampler with Footstep stays within budget while maintaining a better than average build quality.

- Samples down to 12"
- Foot pedal offers extra leverage for penetrating hard ground
- Self-sharpening cutting tip
- Constructed of Nickel-plated, DOM high strength steel

SS365

Spray Boom Lights

5" 40 Watt Blue LED light specifically designed for crop spraying equipment.

- 50,000+ Hr LED Lifespan
- Instant On/Off - No Warm up
- RoHS Compliant
- Cast Aluminum Housing
- Durable PC Lens

LL0540

Touchdown Wheels

- 14" Solid Tire / Ball Bearing Wheel
 - Complete with U-Bolts
 - Fits Up To a 2" Square Tube
 - All Steel Bracket
- (Sold as a Pair)

TD

Grain Test Weight Scale

Simple to use and determines POUNDS per BUSHEL and kg. per hl. for all grains.

C10727HV

Density Scale

Portable, accurate scale made of chemical-resistant ABS plastic. Fertilizer scale helps you set fertilizer equipment to the correct weight per cubic foot. Metric or standard weights. USDA approved. 15.5" long.

300-FT-023A

White Pocket Knife Density Scale

Provides a simple & economic way to measure the density of fertilizer. Easy to use - just fill the cup, using a knife - level the fertilizer with the top of the cup, then simply use knife blade to balance and read the weight.

AL100

OHIO VALLEY AG CORN DROPS

Ohio Valley Ag has Corn Drops for fertilizer placement at prices you can afford.

Our Corn Drops fit on all sprayers and can be used on applicators as well!

Benefits Of Corn Drops

- Minimal cost with fast conversions
- Moves easily through crop canopy
- No erosion
- Less weight and fatigue on boom
- Nutrients closer to root zone

**** ASSEMBLY REQUIRED ****

Offered in three kits

- Part# CORNDROP (Single Row)
- Part# CORNDROP5 (5 row kit)
- Part# CORNDROP10 (10 row kit)

Pistol Grip Grease Gun w/Whip Hose

- Maximum Pressure 5000-PSI
- Delivers 1-oz. per 40 Strokes
- Holds 14 1/2-oz. Cartridge
- 1/8" NPT Threads
- Multiple Loading via Cartridge, Suction or Bulk
- Comfortable One-Hand Operation
- AirRelease Achieved Through Half Turn of the Head Assembly
- 12" Whip Hose

Manual Grease Gun

- Deluxe Lever Style Gun
- MODEL 12R Whip Hose and Coupler
- Can Develop 7,000 Pounds of Pressure
- Bright Zinc Plated
- Spring Primed
- 14.5 Ounce Cartridge, Filler Pump or Suction

19.2 Volt Cordless Grease Gun

- High-Flow Rate & Pressure
- Powerful Heavy-Duty Battery
- Operating PSI: 8,500
- Hose Length 30"
- Dimensions L x W x H: 22" x 4 1/2" x 17"
- Battery, Charger & Case Included
- Flow rate: 4.9 oz./min
- Application: Auto, Trucking, Agriculture Industry
